

2019

HOT PRODUCTS

EVERY DECEMBER, we give you our roundup of the hottest products and services that came across our desks from manufacturers and dealers in the church market.

This issue should be your church's "wish list" going into the new year, as you continue to evaluate and select products to help you operate your worship facility more effectively and efficiently.

In every issue through the year, every single product or service we cover in the magazine is there because we think it's something that you will find useful, so we're excited about each and every one in all of our issues. Our sole mission is to help you make purchasing decisions, so we're all about products, all the time. This list reflects the "best of the best."

It is a great time to be a church leader, because the market is overflowing with options for great products and services for your church.

Here are some of the products and services that stood out to us this year.

Morton Buildings

From sanctuaries, activity centers, fellowship halls, offices, and classrooms, Morton Buildings can provide an inspiring place to grow your ministry. Their comprehensive services all revolve around a construction-led, design-build process. Plus, they are confident in their craftsmanship and back it with warranties that are the best in the industry.

Hampton Ridge Financial

Hampton Ridge Financial provides equipment financing options for churches of all sizes. Make budgeting easier by purchasing all the equipment you need with one low monthly payment. They provide financing for furniture, audio/visual equipment, signs, HVAC, vehicles, and much more. Apply online and order your equipment within 1-3 days!

www.WorshipFinancing.com

APEX 2016

The APEX 2016 mobile stage features a 20' x 16' stage deck (with 12' 10" of stage height) and the availability to be towed with a bumper/ball hitch by a one-ton truck. It is equipped with steel wheels, hydraulic outriggers, all-steel construction trailer frame, and two single axels.

Easy to operate, maneuverable in tight areas, and budget-friendly, this mobile stage is the perfect fit for facilitating smaller venues.

www.apexstages.com

Bearcade

These lightweight units are Made in the USA, certified for strength and quality control, and code compliant, as there is no change to the door or door frame. Critically important concerns about bullying, harassment, and assault means they cannot be used secretly to make an office or classroom less safe.
